

axure RP Pro Introduction

Call: 01628 810 196 | jessica@dynamix-training.co.uk | www.dynamix-training.co.uk

axure RP Pro is an industry standard leading tool for rapidly prototyping web, desktop and mobile software applications.

axure RP Pro's use is growing amongst the user experience design community.

This training is designed for those who have little or no knowledge of axure who want to learn basic wireframing and move into prototyping mobile, web and desktop apps.

This course is run on a bespoke basis, giving you the opportunity to tailor the course to your exact requirements. To provide a starting point, we'd recommend you use the suggested course outline as a guide only. We offer more detailed courses on request.

The course runs from 9.30 am to approximately 4.30 pm.

Duration: 1 day.

Course Content:

Prototyping in the context

Examples of Real axure RP Pro Projects

The axure RP Pro Workspace & Core Functions

Widget States and Effects

Adding and Customising Annotations

Adaptive views for designing responsively

Using masters

Basic Interactions & Conditional Logic

Building Flow Diagrams

Generating and Customising HTML Prototypes.

Dynamic Content
