

Adobe INDESIGN Fixed, Re-flowing & Online ePub

Call: 01628 810 196 | jessica@dynamix-training.co.uk | www.dynamix-training.co.uk

Course Description

Our ePub with InDesign course is structured to enable InDesign users to create reflowable and fixed layouts (InDesign CC 2015 and above) ePub format books for viewing on tablets, smartphones and computers alike.

In this course we go through the process of setting up the source files, formatting content correctly for eBook readers, and exporting and validating the ePub in both re-flowing, fixed layout formats and Online hosted files.

This training course is bespoke, giving you the opportunity to tailor the content to your exact requirements. If you need a starting point, use the course outline below as a guide. The important thing to remember is that it's your course - tell us your goals and we'll help you achieve them.

The latest update to Adobe InDesign CC makes creating highly-designed, graphically-rich fixed layout EPUBoutput easy. If you know how to use InDesign for print projects, you now have a simple path to publishing your content digitally for reading on tablets, laptops, mobiles and desktop computers. Fixed layout EPUB 3 supports accurate positioning of text and graphics, as well as audio, video, and interactive elements. Fixed layout EPUBs create a faithful reproduction of your InDesign layout in a digital format.

Please note, that a prerequisite of the course is that you can already use InDesign.

Overview on how epubs work
Fixed layout and re-flowing epub

Setting up the necessary tools for ePub publishing

ePub (re-flowing)
Controlling the flow of documents
Anchoring content into the text flow
Using the articles panel

Techniques for managing sections and chapters

ePub (fixed layout)
Preview panel
